

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (Canceled)

Claim 2 (Previously Presented)

Tool according to claim 23, wherein said measuring and display device comprises at least one measuring sensor for measuring at least one of said plurality of physical values, a converter for converting the measured value into an electrical signal, a microprocessor for converting the electrical signal into a standardized physical unit, and a display of the measured physical value in terms of said unit.

Claim 3 (Previously Presented)

Tool according to claim 2, further comprising at least one storage device for the storing of the measured value.

Claims 4-7 (Canceled)

Claim 8 (Previously Presented)

Tool according to claim 23, characterized in that the measuring and display device can be switched on or off.

Claim 9 (Previously Presented)

Tool according to claim 23, further comprising a weighing device arranged for being pulled out or swung out of the pocket knife.

Claim 10 (Canceled)

Claim 11 (Previously Presented)

Tool according to claim 23, further comprising a pressure-sensitive switch for operating the menu circuit.

Claim 12 (Canceled)

Claim 13 (Previously Presented)

Tool according to claim 23, characterized in that the tool has an interface providing communication with an external device, which permits input of data into the measuring and display device and transmission of data from the measuring and display device.

Claim 14 (Previously Presented)

Tool according to claim 13, characterized in that the interface is capable of transmission of data by at least one of cable transmission, wireless data transfer, and optical data transfer.

Claims 15-22 (Canceled)

Claim 23 (Previously Presented)

Multifunctional tool comprising
at least one pocket knife in combination with
at least one measuring and display device for measuring and displaying a plurality of physical values, and having a display for displaying said plurality of physical values, and a menu circuit for selecting said physical values to be displayed;
said at least one measuring and display device, said menu circuit, and said display being arranged integrally with the pocket knife;
further comprising an access control member in the pocket knife, said access control member comprising an Access-Control-Circuit.

Claim 24 (Canceled)

Claim 25 (Previously Presented)

Tool according to claim 23, wherein said measuring and display device switches off automatically after a predetermined period of time.

Claims 26-49 (Canceled)

Claim 50 (Previously Presented)

Multifunctional tool comprising
at least one pocket knife in combination with
at least one measuring and display device for measuring and displaying a plurality of physical values, and having a display for displaying said plurality of physical values;
said at least one measuring and display device and said display being arranged integrally with the pocket knife; and further comprising
an access control member in the pocket knife, said access control member comprising an Access-Control-Circuit.

Claim 51-72 (Canceled)

73. (Previously Presented)

Multifunctional tool comprising
at least one pocket knife in combination with
at least two cover plates enclosing the at least one pocket knife and
at least one measuring and display device for measuring and displaying a plurality of physical values, and having a display for displaying said plurality of physical values, and a menu circuit for selecting said physical values to be displayed;
said at least one measuring and display device, said menu circuit, and said display, being arranged in at least one of said at least two cover plates, said at least two cover plates being attached integrally with the pocket knife;

further comprising a sending member for sending a localizing signal in order to localize a person carrying the pocket knife, said sending member comprising an ELT (Emergency Localization Transmitter).

74. (Previously Presented)

Multifunctional tool comprising
at least one pocket knife in combination with
at least two cover plates enclosing the at least one pocket knife and
at least one measuring and display device for measuring and displaying a plurality of physical values, and having a display for displaying said plurality of physical values, and a menu circuit for selecting said physical values to be displayed;

said at least one measuring and display device, said menu circuit, and said display, being arranged in at least one of said at least two cover plates, said at least two cover plates being attached integrally with the pocket knife;

further comprising an access control member in the pocket knife, said access control member comprising an Access-Control-Circuit.

Claims 75-91 (Canceled)
